

Versatile Announces Desjardins Group as New Financial Services Partner

Vancouver, Canada, March 1, 2010 – Versatile Systems Inc. (Trading symbols on the TSX Venture Exchange: VV and on AIM: VVS), announces that Desjardins Group, the largest cooperative financial group in Canada is a new financial services partner. Desjardins customers, including La-Z-Boy Canada, will now be able to process credit applications using the Versatile Mobiquity Kiosk™ system to make the transaction more efficient and secure.

Combining Versatile's proprietary kiosk hardware and software, the Mobiquity Kiosk™ enables retailers to automatically process electronic credit card applications. It is designed for retail establishments that sell big-ticket items in a retail showroom environment. The solution also delivers improved sales performance at the showroom level while providing the retailer with valuable purchasing information and business metrics.

Versatile has partnered with Desjardins to provide consumer finance solutions for their customers using Versatile's Mobiquity Kiosk™. "We have been looking for an innovative way to help our retail partners enhance the customer experience, improve sales and increase customer loyalty, with the highest level of security available," said Philip Ward, Sales Director at the Desjardins Card Services Division. "We are pleased to have Versatile's Mobiquity Kiosk™ as part of our suite of products and services offerings for our client partners."

"Desjardins will be an excellent partner for Versatile throughout Canada," said Oliver Poppenberg, Jr, Executive Vice President, Sales. "Desjardins is a forward thinking financial institution that is committed to the highest level of customer service and recognizes that technology can play a major part in achieving that goal."

About Versatile

Versatile provides business solutions that enable companies to improve sales, marketing and distribution of their products. Versatile also provides information technology services for the implementation, maintenance and security of mission-critical computer environments.
